SKILLS

- **Languages**: C++, JavaScript
- **Frameworks**: NodeJS, React, Bootstrap
- **Tools/Platforms**: GitHub, Postman
- **Soft Skills**: Team Player, Project Management, Adaptability
- **Core CS concepts**: Data Structures & Algorithms, Oops

INTERNSHIP

- **Full Stack Developer - Intern**   June – July 2025
    Dhobi G, Remote
    - Contributed to the development of a web-based laundry management platform for customer order scheduling, tracking, and history.
    - Designed and implemented responsive UI components using **Next.js**, ensuring seamless performance across mobile and desktop devices.
    - Developed backend functionalities in **Django**, including RESTful API routes for order placement, user management, contact form handling, and career postings.
    - Improved collaboration and delivery efficiency through daily meetings, task prioritization, and effective use of AI tools for problem-solving.

PROJECTS

- **Job and Internship Platform**   Jan 2025
    - Engineered a **Full-Stack** job listing web application that allow user to browse and apply for job dynamically.
    - Build and integrate a full **CRUD** operation for database management, ensuring seamless data creation, deletion, updating and retrieval.
    - Added an admin panel were enabling company admin to create and manage job posting efficiently.
    - Integrated **secure authentication (JWT)** and optimized front-end & back-end interactions for seamless performance.
    Tech: JavaScript, Bootstrap, MongoDB, Express.js, React.js, NodeJS, JWT Authentication, RESTful APIs.

- **Farmer Land Buying Platform**   Dec 2024
    - Engineered a **Full-Stack** land buying platform that allows farmers to browse and look land dynamically.
    - Added panel for farmers to search for available land based on there skills, location and availability.
    - Implemented landowner panel to list their land for rent, specifying required skills and duration.
    - Enabled Location based filtration using Google Maps API to enhance user experience in a full stack platform.
    Tech: JavaScript, Bootstrap, MongoDB, ExpressJs, ReactJs, NodeJs

- **To-do List Web Application**   Nov 2024
    - Developed a fully responsive Todo list web application that allows user to manage daily task dynamically.
    - Added feature enabling user to create, edit, delete tasks dynamically in a full stack web application. according to their needs.
    - Implemented Location storage and MongoDB integration for task persistence in a full stack application.
    Tech: JavaScript, Bootstrap, MongoDB, ExpressJs, ReactJs,

CERTIFICATIONS

- Data Structures & Algorithms (C++) by Cipher School.   Dec 2024
- Certification in Cloud Computing by NPTEL   Jul 2024
- Design and Analysis of Algorithm by Coursera   Feb 2024
- Generative AI for everyone by Coursera   Jan 2024

CO-CURRICULAR ACTIVITIES

- Smart India Hackathon | LPU   Dec 2024
- Community Development Project | Summer term | LPU   Jun 2023

EDUCATION

- **Lovely Professional University**   Punjab, India
  Bachelor of Technology - Computer Science and Engineering;   *Since August 2022*

- **Indian Public School**   Purnia, Bihar
  *Intermediate; **Percentage: 71%***   *April 2018 - March 2020*
